Why should mindfulness and meditation be taught at universities?

What impact could the establishment of such programs have on students and on the education system itself? Andreas de Bruin showcases the remarkable results of the first ten years of the Munich Model » Mindfulness and Meditation in a University Context « - a program started in the year 2010 in which 2000 students have already participated. Through meditation-journal entries featured in the book, students describe the effects of mindfulness and meditation on their studies and in their daily lives. In addition to an overview of cutting-edge research into mindfulness and meditation, along with in-depth analyses and explanations of key terms, the book also contains numerous practical exercises with instructions.

memoir, biography, wisdom teaching and metaphysical philosophy to present a rare illustration of how an oral tradition of Knowledge can be transmitted in modern Britain under the guidance of an extraordinary Sage. This book is the first direct and personal account of over forty years under the direction of this inspiring authentic Teacher, who insisted on obscurity while he lived. As the text reveals, life around such an individual is never dull. Through anecdote and lively description, it embodies and brings to life some founding principles of spiritual teaching, removing some of the mystique and superstition which have encrusted traditional esoteric work. It also fills in the background to the author 's The Meditator 's Guidebook which is a classic of the meditation genre for its clear and profound approach to meditation from the same lineage of oral transmission and was originally published over 30

This collection of eleven original essays interrogates the concept of freedom and recenters our understanding of the process of emancipation. Who defined freedom, and what did freedom mean to nineteenth-century African Americans, both during and after slavery? Did freedom just mean the absence of constraint and a widening of personal choice, or did it extend to the ballot box, to education, to equality of opportunity? In examining such questions,

rather than defining every aspect of postemancipation life as a new form of freedom, these essays develop the work of scholars who are looking at how belonging to an empowered government or community defines the outcome of emancipation. Some essays in this collection disrupt the traditional story and time-frame of emancipation. Others offer trenchant renderings of emancipation, with new interpretations of the language and politics of democracy. Still others sidestep academic conventions to speak personally about the politics of emancipation historiography, reconsidering how historians have used source material for understanding subjects such as violence and the suffering of refugee women and children. Together the essays show that the question of freedom—its contested meanings, its social relations, and its beneficiaries—remains central to understanding the complex

Sri Nisargadatta Maharaj (1897-1981), a revered master of the Tantric Nath lineage, is an inspiring example of an ordinary family man who attained complete realization of the Infinite. His words carry a rare potency that can jolt the listener or reader into a profound sense of awareness, which at the same time signifies true freedom-the freedom from all fear and mental suffering. In this volume, Nisargadatta clearly demonstrates that logic and spirituality do not necessarily stand in opposition to one another. In a chapter after which this book has been titled, Nisargadatta relentlessly pursues a logical argument with the visitor to its very end.

The Ultimate Medicine is not for those who like their spirituality watered down, but for serious students searching for awareness. Sri Nisargadatta Maharaj (1897-1981) lived and taught in a small

apartment in the slums of Bombay. A realized master of the Tantric Nath lineage, he supported himself and his family by selling cheap goods in a small booth on the streets outside his tenement for many years. His life exemplified the concept of absolute nonduality of being. In this volume, Maharaj shares the highest truth of nonduality in his own unique way. His teaching style is abrupt, provocative, and immensely profound, cutting to the core and wasting little effort on inessentials. His terse but potent sayings are known for their ability to trigger shifts in consciousness, just by hearing or reading them. "The point is that man freed from his fetters is morality personified. Such a man therefore does not need any moralistic injunctions in order to live righteously. Free a man from his bondage and thereafter everything else will take care of itself. On the other hand, man in his unredeemed state cannot

possibly live morally, no matter what moral teaching he is given. It is an intrinsic impossibility, for his very foundation is immorality. That is, he lives a lie, a basic contradiction: functioning in all his relationships as the separate entity he believes himself to be, whereas in reality no such separation exists. His every action therefore does violence to other 'selves' and other 'creatures,' which are only manifestations of the unitary consciousness. So Society had to invent some restraints in order to protect itself from its own worst excesses and thereby maintain some kind of status quo. The resulting arbitrary rules, which vary with place and time and therefore are purely relative, it calls 'morality,' and by upholding this man-invented 'idea' as the highest good – oftentimes sanctioned by religious 'revelation' and scriptures – society has provided man with one more excuse to disregard the quest for liberation or
