Two new titles that provide comprehensive coverage of the syllabus. Units 1 and 2 of Biology for CAPE@Examinations provide a comprehensive coverage of the CAPE@Biology syllabus. Written by highly experienced, internationally bestselling authors Mary and Geoff Jones and CAPE@Biology teacher and examiner Myda Ramesar, both books are in full colour and written in an accessible style. Learning objectives are presented at the beginning of each chapter, and to assist students preparing for the examination, each chapter is followed by questions in the style they will encounter on their examination papers.

For CXC students who want to prepare fully for their exams, CXC Study Guides are a series of titles that provide students with additional support to pass the exam. CXC Study Guides are a unique product that have been written by experienced examiners at CXC and carry the board's exclusive branding.

Textbook provides complete coverage of the CAPE Biology Unit 2 syllabus. There are worked examples, a glossary of important biological terms, end of chapter questions in a range of formats (multiple choice, structured and essay questions) and a summary of key ideas at the end of the chapter

Biology study guide provides extra guidance and support to full as well as partime students doing CAPE Biology unit 1.

This CAPE Biology Multiple Choice Practice book is an invaluable exam preparation aid for CAPE Biology students. This book provides excellent practice for the multiple choice questions from Paper 1 of the CAPE examination, and has been specially written to help CAPE Biology students improve their Paper 1 exam score.

These Study Guides have been developed exclusively with the Caribbean Examinations Council (CXC(r)) to be used as an additional resource by candidates who are following the Caribbean Secondary Education Certificate (CSEC(r)) programme. They provide candidates with extra support to help them maximise their performance in their examinations.

Nonnative Oysters in the Chesapeake Bay discusses the proposed plan to offset the dramatic decline in the bay's native oysters by introducing disease-resistant reproductive Suminoe oysters from Asia. It suggests this move should be delayed until more is known about the environmental risks, even though carefully regulated cultivation of sterile Asian oysters in contained areas could help the local industry and researchers. It is also noted that even though these oysters eat the excess algae caused by pollution, it could take decades before there are enough of them to improve water quality.

Covering the latest Cambridge A Level Biology syllabus (9700), this stretching resource supports advanced science skills. It helps build long-term performance, as well as supporting confidence for the Cambridge exams. The practical approach helps to make science meaningful - ideal for students planning to study science at university.

Study Guides for CAPE have been developed and written by CXC to provide CAPE candidates in schools and colleges with resource materials to help them prepare for their exams. Matching the topics in the syllabus, the student-friendly structure and content enable students to develop their skills and confidence as they approach the examination.

This title covers the entire syllabus for Cambridge International Examinations' International AS and A Level Biology (9700). It is divided into separate sections for AS and A Level making it ideal for students studying both the AS and the A Level and also those taking the AS examinations at the end of their first year. - Explains difficult concepts using language that is appropriate for students around the world - Provides practice throughout the course with carefully selected past paper questions at the end of each chapter We are working with Cambridge International Examinations to gain endorsement for this title.
